Who is FAS Relocation?

FAS Relocation Network, founded in 1987, initially focused our efforts in the area of executive recruiting which led naturally into understanding and addressing the needs of our corporate clients' transferees and new hires. Over the years we have added and improved upon services and technology based on client needs and feedback, and developed a business model that most effectively streamlines processes to provide outstanding global service while experiencing low operating costs – which we pass on to you! Our services are free to you, and help you during the pre-decision stage all the way through to moving to the new location.

Laura Peterson
Relocation Coach

Your FAS Relocation Coach provides you with information necessary for you and your family to make the right decision from the start and will guide you through the entire relocation process. Any questions, concerns, or help you need along the way should be directed to Laura.

Laura Peterson is a Relocation Coach for FAS. Laura has been working in the customer service industry for over 5 years. She has an extensive background in counseling and dealing with difficult time sensitive information. Laura enjoys writing music, she sings and plays the piano and is actively involved in her church.

FAS' goals are to help you to make the right long-term decision about relocating and to reduce the stress that often accompanies moving. FAS' Family Values Program addresses the personal needs of you and your family. During the course of your initial interview with the Relocation Coach, she will gather information pertaining to spouse's employment, school preferences, current neighborhood characteristics, etc. Based on that information, your Coach will coordinate the appropriate services and identify the best real estate agent for you, advising him/her of your specific requirements. Once your decision is made to move, your Coach will guide you through the rest of the process, acting as your advocate and point of coordination.

FAS Family Values Program
