

Enhancing care, improving health

Our specialty pharmacy team has the expertise to help improve medical outcomes and ease complex drug therapies for physicians and their patients living with a wide range of chronic conditions, including:

Rheumatoid Arthritis

Psoriasis

Hepatitis

Dermatology

RSV

Oncology

Multiple Sclerosis

HIV/AIDS

Hemophilia

Transplant

Your partner for Specialty Pharmacy Services

PharmaCare's commitment to helping patients and their physicians manage complex drug therapies by delivering individualized care with expertise, compassion and dedication has made us the leading specialty pharmacy in the country.

EXPERTISE: From enrollment through extended therapy, each patient receives the maximum level of expert, customized attention and unsurpassed clinical capabilities. Professionals are always on call to help manage side effects, avoid drug interactions and answer questions.

PATIENT FOCUS: We offer the kind of responsive, caring patient support that can improve outcomes, including benefits counseling, coordination of care, disease education, refill reminders and more.

CONVENIENCE: Patients can receive their medications via mail or common courier, from over 40 specialty pharmacies throughout the country or at their physician's office. And, the medications are always in stock, even hard-to-find ones.

PHARMACARE SPECIALTY PHARMACY

Special Conditions... Require Specialty Care

Special Conditions... Require Specialty Care

FOR PHYSICIANS

Dedicated services and support

We offer a broad range of medication and support services to help you deliver better care, including:

- Insurance verification, Medicare and Medicaid specialist and prior authorization assistance, when necessary
- Patient enrollment updates
- Clinical support and reminders for every prescription refill
- Clinical counseling to help manage dosing, side effects and interactions
- The latest information on new drug therapies
- Disease-specific support materials

FOR PATIENTS

Clinical expertise, customized care and convenient services

We consider ourselves a member of your patient's care team and can help ease their mind, enhance their quality of life and improve their health with:

- Adherence monitoring programs to ensure compliance
- Medication refill reminders
- Side effect management and disease-specific educational support
- Free delivery to their home or physician's office
- Easy access to hard-to-find medications
- Telephone injection training or one-on-one instruction at our local pharmacies
- Reimbursement counseling to help minimize out-of-pocket costs
- Personalized care from highly trained pharmacists and clinicians that are on call 24 hours a day

Getting Started

Three simple steps make PharmaCare Specialty Pharmacy the easiest to use.

- 1 COMPLETE** the PharmaCare Customized Enrollment form, which acts as an official prescription with a physician's signature.
- 2 FAX** the Enrollment Form to PharmaCare Specialty Pharmacy's dedicated fax number at one of our many pharmacy locations. If PharmaCare cannot fill the prescription due to insurance restrictions, we will forward it directly to another pharmacy provider.
- 3 YOUR PHARMACARE SPECIALTY PHARMACY TEAM WILL DO THE REST.** Once our reimbursement specialist verifies benefits, you'll receive a fax within 24 hours confirming receipt and processing. We can also assist in the prior authorization process to minimize the time your office spends on the phone with the insurance company.
