## TABLE 'H' – ZIP CODE / HMO

A new table called ZIP CODE/HMO has been added to the user table function select screen. For a complete description on how to use the table, please go to the user tables and view the web page at <http://sago.tamu.edu/bpp/manuals.html> .

The table will be loaded with zip codes and the relative hmo(s) belonging to the zip code. The table will be used to inquire on what hmo(s) a person has access to, based upon his/her home zip code. This will replace searching the zip codes for each hmo to determine if a person was eligible for a particular hmo. The table will also be used in the annual enrollment letter, the BEST telephone system, and the annual enrollment screen. Beginning in September, an edit will be done on the 'G1' screen, so that the person is limited to the hmo(s) assigned to his home zip.

If there are any questions, please do not hesitate to contact Jesse Olivarez at (409) 845-7976 or [Olivarez@sagomail.tamu.edu](mailto:Olivarez@sagomail.tamu.edu).
