[CSP - TEES Hypersonic Wind Tunnel Project ↗](#) – Responses due 10/1/2024

MSA OPPORTUNITIES - FP&C is currently soliciting responses from interested firms for four of their Master Service Agreements (MSAs) which are listed below. Any questions should be directed to System Procurement at soprocurement@tamus.edu.

- 1) Construction Audit Services – SEE ABOVE FOR MORE INFORMATION.

- 2) Subsurface Utility Engineering – SEE ABOVE FOR MORE INFORMATION.
- 3) Project Support Services (outsource PM, inspections, forensic scheduling, cost estimating, subcontractor outreach) – SEE ABOVE FOR MORE INFORMATION.

CSP OPPORTUNITIES –

[TEES Hypersonic Wind Tunnel CSP](#): THIS PROJECT HAS POSTED. See above for more information.

“New 8,600 sf one-story, fully sprinklered, Pre-engineered metal building with prefinished metal roof and wall panels at RELLIS campus for TEES Hypersonic Wind tunnel Facility. The building consists of common building support areas and utility rooms as well as two Wind Tunnel rooms with support spaces including labs and control rooms to house Owner’s furnished and installed wind tunnel equipment. The project also includes new road and parking for building access, new water, new sanitary, new electrical, new fiberoptics connections to existing available utilities. The project site is located adjacent to BAM and Det Tube facilities near RELLIS runway.”

[C.U.P. Generator Replacement CSP](#): Tentatively scheduled to post on the ESB in mid-September.

[Click here to view slides ↗](#)

“This project consists of replacement of Steam Turbine Generator 4 (STG) along with its auxiliary equipment and required balance of plant modifications including cooling tower structural refurbishment and cooling tower capacity upgrade at the Central Utility Plant (CUP) in College Station, TX. The turbine pedestal currently supporting the existing STG will be modified to install the new surface condenser and support the new STG. Major equipment installation will be performed by creating a temporary opening in the CUP building roof due to inadequate equipment installation corridors at the CUP facility. New equipment includes steam turbine generator with auxiliary systems, surface condenser, steam jet air ejector skid, condensate pumps, cooling water pumps, and cooling tower fill. Necessary architectural, structural, mechanical, electrical, and controls work will be provided to fully integrate the new equipment into the existing facility.”

SSC OPPORTUNITIES – The SSC currently has the following construction opportunity posted on the [ESBD ↗](#). The SSC has a separate distribution list for construction opportunities. If you wish to be added to that list, please email Lisa Gray at lisa.gray@sscscserv.com with your request.

[SSC 2024-06370 Keathley - Bathroom & Plumbing Upgrades - Solicitation ID: SSC 2024-06370 ↗](#) – Responses due 9/10/2024 (TODAY)

PROJECT RADAR –

Hoar Construction currently has the following scopes out to bid for the *Morris Recreation Center project (#21-3401)* in Commerce, TX: Surveying, Selective Demolition, Turnkey Concrete, Fire Suppression, Plumbing, HVAC & Controls, Electrical, Fire Alarm, Earthwork, Erosion Control, Landscape/Irrigation, and Site Utilities. To access the drawings, [use this link](#). A site walk will take place on September 10th at 1 PM. Bids are due by September 24th at 5 pm. Contact John Holman for more information at jholman@hoar.com. Bidding for remaining work packages is expected to open this December. All dates are tentative.
